- 112% sRGB color gamut presents rich, accurate colors for lifelike visuals
- VESA DisplayHDR 400 delivers enhanced contrast and brightness, making images more vivid and realistic
- An ergonomic stand supports tilt, height, and swivel adjustments for a personalized comfort experience

Overview

The Envision MN-G27Q10X gaming monitor is built to win. At its heart is a 27-inch 2K Fast IPS display that delivers incredibly sharp visuals, smooth gameplay, and a wide 178-degree viewing angle. With an ultra-high refresh rate of 180Hz and a true 1ms GTG response time, this monitor eliminates motion blur and input lag, ensuring you have a competitive edge in every match.

Features and Benefits

■ 27 Inch Ultra-Wide Display

Our 27-inch screen will bring you a truly immersive and efficient workspace. The large screen allows you to easily open multiple windows side by side for multitasking, while the high pixel density of 2560×1440 ensures that every detail is presented with stunning clarity.

■ Delicate Colors, Realistic & Natural

The 16:9 aspect ratio and 2K (2560×1440) resolution provide a wide field of view, while 112.22% sRGB ensures smooth color transitions.

■ High Configuration For Gaming

A 1ms GTG response time combined with a 180Hz high refresh rate delivers a smooth gaming experience.

■ Comfortable & Easy On Your Eyes

Low blue light, built-in flicker-free technology, allowing you to activate flicker-free mode when watching movies or browsing the web, eliminating screen flickering and providing a comfortable viewing experience.

■ Multi-Function Ergonomic Stand

User-Friendly Ergonomic Design, supports height adjustment, left and right rotation, and tilt adjustment. Finding a comfortable sitting posture is a responsible way to care for your cervical and shoulder spine.
